Re: ETS [IAQ Credentials]

Dear Steve:

We are advised that the EPA has brought together a group of 60 or more consultants or contributors in the indoor air industry to discuss developing a credentials program. A copy of the IAQ Credentials Mailing List is attached. Apparently the group has determined that there are no presently existing standards to reference in establishing credentials, and as a consequence, they will rely in the interim on existing systems associated with industrial hygiene for establishing credentials. There are apparently three work groups now underway on behalf of the overall committee.

Sincerely,

Leo P. Dreyer
